CASH / VALUABLES PROTECTION

Shock Briefcases

MIDI SLIM-LINE

SLIM-LINE

STANDARD

BANKING

APPLICATION: Ideal for safe transportation and storage of cash, valuables and important documents.

The Briefcase offers an extremely effective, yet non-lethal 50,000 –volt shock as deterrent, which forces the criminal to let go of the briefcase. An ear-piercing siren is simultaneously triggered to attract unwanted attention. In one incident the thief fired three shots into the case out of frustration before fleeing empty handed.

Used by: Government Departments, Security Contracting Companies, Banks, Corporate/Private Businesses and jewelry industry.

Features include;

- Long range remote control activation, 50-100 metres.
- High voltage, non-lethal, safe yet effective shock all round briefcase as well as the handle.
- Ear-piercing siren (110-dB) to attract unwanted attention.
- Unique temporary safe, stand-by storage facility.
- Fully rechargeable complete with Ni-Cad battery and Charger.
- Tested and in use by South African Authorities.
- Detachable sealed electronic insert for easy maintenance.
- Stylish finishes looking like an ordinary briefcase. Customized cases and sizes available on request.
- Solid durable constructed cases covered in black leatherette and are also available in Genuine Leather, African Buffalo finish (Colours subject to availability)
- Recommended by International renowned Insurance agencies.
- Optional Back-up wrist strap activation / Optional colour smoke and dye pack.
- Fully warranted in accordance with the Force Manufacturing warranty.

Technical Specification

Valuables protection -Briefcases (Leatherette)

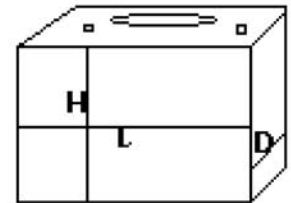

1. GENERAL

ATA Systems Shock Briefcases are used for the safe transportation and storage of cash, valuables and important documents. Once activated via long-range remote control or back-up activator pin, the product offers 50,000-volt shock on all sides including the handle together with a 110 dB siren as protection, enough to deter and retrieve the case immediately.

2. ENERGIZER AND CONSTRUCTION

- SABS tested non-lethal but effective electronic shocking device with an output of +/- 50,000 volts and pulses of 4 micro second duration at an average current of less than 1 micro amp.
- 110 dB Ear-piercing siren.
- Solid 10mm flight wood construction covered with durable black leatherette, models in genuine Buffalo Leather in colors; Black, Sandstorm, Gray and Brown are also available.
- Key switch ON with standby light indicator.
- Long range remote control activation. Operating frequency 434 MHz.
- Fitted with unique temporary safe storage facility to protect contents when left unattended.
- All cases are fitted with a factory-sealed insert for easy maintenance which houses all electronics incl. Ni-Cad rechargeable battery pack, plug-in charger connector with indicator, temporary safe ON/OFF switch and Key switch.
- Visible test spark in handle indicates battery level. Test Spark, weak and slow or not visible, battery needs to be charged. Standby time approximate 40 hours.
- Continuous shock 1-2 hours.
